REMOTE HEADS

PEDS / HEADS

- Stargate 3-Axis Head** **\$600**
- Stargate 2-Axis Head** **\$400**
- ACS 2-Axis Head** **\$400**

Camera Support proudly offers our revolutionary Stargate 3-Axis Remote Camera Head allowing a full 360-degree rotation of your video or film camera. The Stargate Head can be mounted to virtually any type of equipment including Jib Arms, Cranes and Rail Cams. Video and 12-volt power are provided through slip rings allowing unrestricted rotation.

The Stargate Head is also available in a 2-axis configuration which can handle large 35mm film cameras.

RAILCAM

CONTACT

The Rail Cam features lightweight aluminum H-beam track which can be either flown or floor-mounted. A powerful and quiet trolley moves virtually any type of stabilized head including Gyron, Wes-Cam, or Libra. A MiniMote with Stabilized lens can also be used. The Camera Support Rail Cam system provides unparalleled stability even on a very long lens.

Camera Support Rail Cam systems are available in lengths ranging from 12 1/2 feet to 150 feet in 12 1/2-foot increments. Longer lengths are available.
